The employment rate information described in this document reflects the performance for a specific segment, campus and/or academic program for a time period specified in the summary of the calculation methodology. These disclosed rates reflect historical outcomes and should not be relied on by anyone as an implicit or explicit representation or promise of future outcomes or employability for any student following completion of a program of study. Numerous individual and market factors contribute to the likelihood of securing a job after graduation and the school has little or no control over many of these factors and, thus, cannot and does not guarantee or estimate the likelihood of employment to any student.

Schaumburg Campus: 915-A National Parkway, Schaumburg, IL 60173

The graduation rates listed below are based on first-time students who started as full-time between 7/1/03 to 10/15/03.

COLUMN A Program	COLUMN B Number of first-time, full-time students who started school	COLUMN C Of the students reported in Column B, the number who graduated within 150% of the normal program length	COLUMN D Graduation Rate
Fashion Design	188	27	14%
Information Technology	42	6	14%
Interior Design	71	14	20%
Merchandising	114	27	24%
Visual Communication	319	50	16%
TOTAL	734	124	17%

FREQUENTLY ASKED QUESTIONS

1. Who is a first-time student?

A first-time student has no prior postsecondary experience before enrolling at this school. This means that a student who attended another postsecondary school before enrolling at this school is not included in the calculation. The rate also does not include students enrolled part-time, taking individual classes (as compared to enrolling in a full program), or only auditing classes.

2. How are the graduation rates calculated?

The rates are calculated using the Student Right-to-Know formula in order to comply with U.S. Department of Education requirements. The statistics track all first-time, full-time certificate or degree-seeking students who began school during the date range noted above and have graduated within 150% of the normal program length. For example, for a two-year program, the graduation rate would include students who had graduated within three years of beginning the program. The Student Right-to-Know formula: $\text{Column C} \div \text{Column B} \times 100 = \text{Graduation Rate}$.

3. How do I obtain more information?

To obtain further details as to policies relating to graduation rates, please contact the Vice President of Academic Affairs at the school. Information pertaining to the graduation rates of all postsecondary institutions recognized by the U.S. Department of Education may be found on the College Navigator website.

EMPLOYMENT RATE CALCULATION INFORMATION

Campus Employment Rate

This rate is calculated for internal quality monitoring.

Reporting Period: This employment rate is based on internal data available for students graduating between July 1, 2008 and June 30, 2009 who have obtained employment within their field or a related field by December 31, 2009.

Employment Rate Calculation:

Number of employed grads

Divided by/

Number of eligible grads (total grads – waivers¹)

¹ Certain graduates are excluded from cohort such as those who are continuing their education and those that have waived employment assistance due to death, disability or incarceration, those serving in the armed forces and their spouses, and those of non-immigrant status.

Accrediting Council for Independent Colleges and Schools (ACICS)

ACICS is a national accrediting agency recognized by the United States Department of Education and the Council for Higher Education Accreditation (CHEA).

Reporting Period: July 1, 2009 through June 30, 2010. Any placement that was obtained by the ACICS annual report filing date (September 15, 2010) was eligible to be counted.

Employment Rate Calculation:

Number of employed grads

Divided by/

Number of eligible grads (total grads – waivers¹)

¹ ACICS excludes graduates from the cohort who are continuing their education or are unable to work because of death, disability, actively serving in the armed forces, or have non-immigrant status.

State of Tennessee

The State of Tennessee, requires that institutions disclose of Placement Rates and other information in a report to the Tennessee Higher Education Commission (THEC).

Reporting Period: July 1, 2008 – June 30, 2009

Employment Rate Calculation:

Number of employed grads

Divided by/

Number of “placeable” grads (Total Grads – “Special Circumstance Non-Placement”¹ + Placed Withdrawals)

¹ “Special Circumstance Non-Placement” – Graduates who fall into one of the following categories: Health related situation, Family emergency, Death, Incarceration, Full-time military service, Job relocated/ transferred, Continuing education at your institution, Continuing education at a different institution, Pending fulfillment of licensure requirements, International students - unable by law to work, Student could not be contacted / Refused employment

Report Excerpt: “Due to the misleading nature of percentages based on small numbers, the annual report only displays performance and demographic information for those programs serving 10 or more students during the reporting period. The performance numbers of programs with less than 10 students are not displayed in the report. Instead of a number, N/A will be in the column. The performance numbers are, however, used in the calculation of the institution’s overall performance and demographic information.”

Divided by/

Number of eligible grads (total grads – unavailable¹)

¹Unavailable grads are those who are continuing their education or are unable to work because of death, incarceration, actively serving in the armed forces, or have non-immigrant status.

**International Academy of Design & Technology
4511 Horizon Hill Boulevard
San Antonio, TX 78229**

The employment rate information described in this document reflects the performance for a specific segment, campus and/or academic program for a time period specified in the summary of the calculation methodology. These disclosed rates reflect historical outcomes and should not be relied on by anyone as an implicit or explicit representation or promise of future outcomes or employability for any student following completion of a program of study. Numerous individual and market factors contribute to the likelihood of securing a job after graduation and the school has little or no control over many of these factors and, thus, cannot and does not guarantee or estimate the likelihood of employment to any student.

PROGRAM	REPORTING ENTITY (click on each name for rate calculation methodology)		
	CAMPUS RATES	STATE OF TEXAS	ACICS
Fashion Design and Marketing – Associate	76.27%	69.62%	83.3%
Graphic Design - Associate	69.64%	59.46%	80.0%
Merchandising Management – Associate	N/A	N/A	100%
ALL PROGRAMS	73.04%	N/A	82.2%

**International Academy of Design & Technology
4511 Horizon Hill Boulevard
San Antonio, TX 78229**

The school began providing instruction in April 2007, which is after the date range used for the graduation rate calculation in 2010. The graduation rate is calculated AFTER there are graduates from the longest undergraduate program at the school based on a formula required by the U.S. Department of Education. For this reason, data is not available at this time.

FREQUENTLY ASKED QUESTIONS

1. Who is a first-time student?

A first-time student has no prior postsecondary experience before enrolling at this school. This means that a student who attended another postsecondary school before enrolling at this school will not be included in the calculation. The rate also does not include students enrolled part-time, taking individual classes (as compared to enrolling in a full program), or only auditing classes.

2. How are the graduation rates calculated?

The rates are calculated using the Student Right-to-Know formula in order to comply with U.S. Department of Education requirements. The statistics track all first-time, full-time certificate or degree-seeking students who began school during the specified date range and have graduated within 150% of the normal program length. For example, for a two-year program, the graduation rate would include students who had graduated within three years of beginning the program.

3. How do I obtain more information?

To obtain further details as to policies relating to graduation rates, please contact the Registrar at the school. Information pertaining to the graduation rates of all postsecondary institutions recognized by the U.S. Department of Education may be found on the College Navigator website. <http://nces.ed.gov/collegenavigator/>

Expires June 30, 2011

Campus Employment Rate

This rate is calculated for internal quality monitoring.

Reporting Period: This employment rate is based on internal data available for students graduating between July 1, 2008 and June 30, 2009 who have obtained employment within their field or a related field by December 31, 2009.

Employment Rate Calculation:

Number of employed grads

Divided by/

Number of eligible grads (total grads – waivers¹)

¹ Certain graduates are excluded from cohort such as those who are continuing their education and those that have waived employment assistance due to death, disability or incarceration, those serving in the armed forces and their spouses, and those of non-immigrant status.

Accrediting Council for Independent Colleges and Schools (ACICS)

ACICS is a national accrediting agency recognized by the United States Department of Education and the Council for Higher Education Accreditation (CHEA).

Reporting Period: July 1, 2009 through June 30, 2010. Any placement that was obtained by the ACICS annual report filing date (September 15, 2010) was eligible to be counted.

Employment Rate Calculation:

Number of employed grads

Divided by/

Number of eligible grads (total grads – waivers¹)

¹ACICS excludes graduates from the cohort who are continuing their education or are unable to work because of death, disability, actively serving in the armed forces, or have non-immigrant status.

State of Texas

The State of Texas, through the Texas Workforce Commission (TWC), requires disclosure of Employment/Placement Rates and other information through its form PS-005. This data is an excerpt from the PS-005 regarding Employment Rates. Prospective students receive and sign a copy of the PS-005 prior to enrolling. For a complete copy of the PS-005, please see your Admissions Representative.

Reporting Period: Graduate/Completer Cohort: September 1, 2008 - August 31, 2009

Employment Rate Calculation:

Number of employed grads (placed¹ + not placed²)

Divided by/

Number of eligible grads (total grads – waivers³)

¹ Graduates that found a job related to training

² Graduates that found a job related to training, with the school's assistance

³ Waivers include graduates who continued postsecondary education, are in active military service, were incarcerated, or deceased after graduation.
